DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1-17, 28 and 29 in the reply filed on 15 December 2009 is acknowledged.

Drawings

2. Figures 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g) and US 6,439,759. Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 16, there is lack of antecedent basis for "the second cam portion".

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-4, 10, 16 and 29 are rejected under 35 U.S.C. 102(b) as being anticipated by Evans (US 2,336,438). Regarding claim 1, Evans discloses a device comprising a carrier support (12); a reciprocating kneading paddle (31); and an adjustor (see the second column of page 2, lines 13-22). Regarding claim 2, the adjustor comprises a user operable control (34). Regarding claim 3, the control comprises a knob (see Figs. 1 and 3). Regarding claim 4, the adjustor is capable of being used in the recited manner (see Figs. 1 and 3). Regarding claims 10 and 16, the carrier support is mounted on a backing portion (see Fig. 1). Regarding claim 29, Evans discloses a device comprising a carrier support (12); a reciprocating kneading paddle (31); and adjustment means (see the second column of page 2, lines 13-22).

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1797

8. Claim 28 is rejected under 35 U.S.C. 103(a) as being unpatentable over Evans (US 2,336,438). The device of Evans was discussed above with regard to claim 1. A bag having a generally triangle shaped portion is also disclosed (see Fig. 1). It would have been obvious to one of ordinary skill in the art to have optimized the size of the bag to suit the amount of material to be processed.

Allowable Subject Matter

9. Claims 5-9, 11-15 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
